Entire basis of the template GIT

- editing/creating agents: duplicate or create a new folder under agent_code
- run:
 - against 3 default agents: `python main.py play --my-agent <agent_name>`
 - against custom number or agents: `python main.py play --agents <agent_name> <agent_name> <agent_name>`
- train: same as above with flags `--n-rounds`
`--train 1 --no-gui`
